RE: Ex parte presentation: IB Docket No. 04-112 – Reporting Requirements of
U.S. Providers of International Telecommunications Services

Dear Ms. Dortch:

On December 1, 2011, Jason Sfaelos and the undersigned, representing Sprint Nextel Corporation (“Sprint”), met with James Ball, Troy Tanner, David Krech, David Strickland, John Copes, Cathy Hsu, Linda Blake, Sean O’More, Jerry Duvall and Mark Uretsky of the International Bureau, and Alec MacDonell of the Wireline Competition Bureau, to discuss the above-referenced proceeding. Specifically, the Sprint representatives expressed their concern regarding reporting requirements applicable to international interconnected voice-over-Internet protocol (VoIP) traffic, as expressed in Sprint’s comments filed August 18, 2011 in this proceeding. The Sprint representatives suggested that the Commission should avoid a blanket reporting requirement for international interconnected VoIP that would require U.S. carriers to gather information about the origination and termination points of voice calls if such information were not be obtained in the ordinary course of business, as may become the case when off-net international voice calls are passed between IP networks and the origination and termination points have no relevance to customer invoicing. The Sprint representatives also agreed that this purpose might be accomplished through clarifying language in the Consolidated Filing Manual.

Sincerely,

David A. Nall
